Proceedings of the Chief Commissioner of Mysore, in the General Department, (Judicial),—dated 12th August 1880.

READ—

Letter No. 395 of 24th ultimo from the Inspector General of Prisons together with its annexures.

No. 377—POLICE 10, DATED BANGALORE, 7TH AUGUST 1880.

ORDER.—The Chitaldroog District Head-Quarter Police it would appear objected to furnish a guard to escort as usual under-trial prisoners to the Court for trial from the Jail under the belief that this duty belonged legitimately to Jail peons.

2. The Chief Commissioner does not consider it the duty of Jail peons to guard and escort under-trial prisoners from Jails or Lock-ups to Courts for trial.

3. This duty necessarily devolves on the Police at District Head-Quarters. Whenever their services are required by the Superintendent of the Jail for this duty, he will give timely notice of the date and the number of prisoners to be escorted to the Court for trial to the Inspector or other responsible officer of the Police in view to necessary arrangements being made for the due performance of escort and guard duty.

READ—

Letter No. 872—81 of the 24th July last from the Judicial Commissioner, together with the file of correspondence, relative to the escort by the Mysore Police of prisoners arrested in the Province under warrant issued by the Magistracy in Her Majesty's Territory.

No. 393—POLICE 12, DATED BANGALORE, 12TH AUGUST 1880.

ORDER.—In the present instance the Police of the Nanjangúd Taluk arrested one Máda under a warrant issued by the 3rd Class Magistrate of Vytheri, and in accordance with the prevailing practice the arrested man was escorted by the Mysore Police to the frontier with the warrant under a sealed cover and a *Rahadari* or *Pass* signed by the station-house officer. This procedure was objected to by the Assistant Superintendent of Police, Wynad, on the ground that the *Rahadari* being signed by a station-house officer was no authority for the Police in Her Majesty's Territory to take over charge of the criminal.

2. This practice though not irregular might be fruitful of unnecessary delay (for the future) in taking over charge of arrested persons by the Police in Her Majesty's Territory, and in order to obviate any such delay the Chief Commissioner directs that all Inspectors and station-house officers may be instructed to refrain from signing such *Passes* for the future, but to produce the arrested person or persons before the Magistrate and obtain from him the necessary *Pass* under his signature.

3. Armed with this authority the Police may thereafter make arrangements for the escort of such criminals to the frontier.

Notification No. 65, dated 19th February 1880, (Revenue Department), abolishing the Revenue branch of the Amildars' Examinations.

Memo No. 161, dated 3rd August 1880, from the Secretary, Revenue Department, on the Deputy Commissioner, Hassan's docket No. 170, dated 29th July, asking when the ensuing Amildars' Examination will be held.

Secretary's No. 3459—895, (General Department), dated 9th August, to Judicial Commissioner, and his reply No. 1037—100, dated 12th August.

No. 4040-4050—J. 73, DATED BANGALORE, 26TH AUGUST 1880.

ORDER.—As the examination of Amildars in Revenue subjects has been abolished, it only remains that such Amildars as have not passed Judicial tests and such other officers as are permitted to appear for the Amildars' Examinations should pass in Criminal Law and Procedure. The Judicial Commissioner recommends that simple questions be set in the Criminal Procedure Code, Indian Penal Code, Evidence Act, and Police Rules. The Chief Commissioner therefore prescribes the above Acts and Rules as the subjects for Amildars' Magisterial examination, and directs that until the examination in these subjects has been passed Amildars will hold their appointments on probation and subject to removal on failure to pass within a reasonable time.

2. The examination will be conducted by or under the orders of the Judicial Commissioner at the same time and in the same manner as the examination of Munsiffs. Intending candidates will send their names to the Judicial Commissioner through the Deputy Commissioner of the District in which they are employed, and in the case of officials other than Amildars the application will be accompanied by a copy of the order granting them permission to appear.

Proceedings of the Chief Commissioner of Mysore in the General Department, (Financial),—dated 11th August 1880.

From the Secretary to the Chief Commissioner of Mysore, General Department, To the Secretary to the Government of India, Foreign Department, Simla, No. 1978—G. 27, dated Bangalore, 21st June 1880.

I am directed by the Chief Commissioner to address you with a view to raising the question of granting gratuities to officers and men of the Mysore Barr Infantry when invalided on less than 30 years' service.

2. At present the pensions which are detailed in the margin and were sanctioned in Foreign Department letters No. 317 of 16th October 1869, and No. 87. M. of 6th April 1870, are granted on a certificate of physical incapacity for further service, after the applicant has completed 30 years' service, but to any one of less service no gratuity or pension is given if he is obliged to retire by reason of physical incapacity to serve further.

3. The condition of these servants of the State compares, therefore, very unfavorably with that of men serving in the Civil Departments. In Mysore inferior servants civilly employed get a gratuity equal to one month's pay for every year's service when invalided, and superior servants get pensions and gratuities on the scale prescribed in Section 68 of the Civil Pension Code which is too well known to need repetition here.

4. It is accordingly felt to be a terrible hardship to invalid a man who by a few years' more service will be entitled to pension, and to cast him adrift without any provision for the future or recognition of past services and the tendency under these circumstances must be to retain men who would otherwise be passed as unfit for further service, if they were sent for examination by the Surgeon, to the prejudice of the efficiency of the service. Recently when one Regiment was being disbanded and the establishment proportionally reduced it was found necessary to ask sanction for special rates of pension and gratuity for inefficient officers and men: these were sanctioned in Foreign Department Under-Secretary's letter No. 773 P, dated 1st March 1879.

5. Under the special circumstances of that occasion, it was permitted that inefficients might be passed by a committee so that men whom a Doctor could not certify to being absolutely physically incapable might still, if thought inefficient as soldiers, be admitted to the benefits of the concession. This is a relaxation which, though it has much to commend itself, might be thought unsafe, and therefore the Chief Commissioner does not now seek to make that the condition of retirement, nor does he think it necessary to propose pensions and gratuities on as liberal a scale as those granted to officials employed in the Civil Departments, but I am to ask that sanction may be accorded to granting gratuities at the rate of three months' pay for every five years' service, limited to a maximum of twelve months' pay, to all officers and men of the Barr who may be invalided and discharged on a medical certificate declaring them to be physically unfit for further service when their length of service is less than thirty years; the pensions already sanctioned for invalided officers and men of thirty years service and upwards remaining as at present.

From the Assistant Secretary to the Government of India, Foreign Department, To the Chief Commissioner of Mysore Military No. 82 G. M., dated Simla, the 2nd August 1880.

I am directed to acknowledge your Secretary's letter No. 1978—G. 27, dated 21st June 1880, regarding the pension rules applicable to the Mysore Barr Infantry, in which you ask for sanction to the grant of gratuities at the rate of 3 months' pay for every 5 years' service, limited to a maximum of 12 months' pay, to all officers and men who may be invalided or discharged on a medical certificate declaring them physically unfit for further service, when the length of their service is less than 30 years.

2. In reply, I am to say that, under the circumstances stated, the Government of India are pleased to agree to your proposal.

No. 3555-3556—F. 432, DATED BANGALORE, 11TH AUGUST 1880.

Proceedings of the Chief Commissioner of Mysore in the General Department, (General),—dated 4th August 1880.

From the Under-Secretary to the Government of India, Foreign Department, To the Chief Commissioner of Mysore, General, No. 670 I. G., dated Simla, the 2nd July 1880.

I am directed to forward for your information copy of the correspondence noted in the margin, regarding the maintenance of cemeteries at non-military stations in Mysore.

om Madras Government to Government of India, No. 3, dated 5th January 1880.
, Madras Government from Home, Revenue and Agricultural Department, No. 122, dated 15th June 1880.

2. You will see that it has been decided that for the future these cemeteries will be placed under ıe control of the Chief Commissioner, and that the cost of this maintenance will be borne by Imperial nds. I am to say that the Government of India also consider it desirable that these cemeteries hould be brought under the rules of 12th December 1877.

Proceedings of the Madras Government, Ecclesiastical Department.

ıead the following papers:—

Letter from the Venerable the Archdeacon, No. 69, dated 15th October 1879.

Letter from the Venerable the Archdeacon, No. 73, dated 29th October 1879.

Letter from the Secretary to the Chief Commissioner of Mysore, No. 6715—G. 1880, dated 22nd December 1879.

Order thereon, No. 3, 5th January 1880.

His Grace the Governor in Council doubts whether the maintenance of cemeteries in the Province of Mysore, at other than military stations, is a proper charge on the Madras Presidency.

2. The papers will be submitted to the Government of India for their consideration.

From the Under-Secretary to the Government of India, Home, Revenue and Agricultural Department, To the Secretary to the Government of Madras, Ecclesiastical, No. 122, dated Simla, the 15th June 1880.

I am directed to acknowledge the receipt of your No. 3 B., dated the 5th January last, forwarding for the consideration of the Government of India, certain papers connected with the question whether the maintenance of cemeteries in the Province of Mysore, at other than military stations, is a proper charge on the Madras Provincial revenues.

2. In reply I am to say that the Governor General in Council has been pleased to decide that the cost of the maintenance of cemeteries at non-military stations in Mysore shall be debited to Imperial revenues. I am to add that the cemeteries in question will be placed under the control of the Chief Commissioner of Mysore.

3. The original papers received with your communication under reply are herewith returned.

No. 123.

Copy of correspondence forwarded to the Foreign Department for the issue of further necessary orders to the Chief Commissioner of Mysore.

From the Venerable the Archdeacon of Madras, To the Chief Commissioner of Mysore, dated Madras, 19th July 1880.

In reference to G. O. Ecclesiastical Department No. 124, dated 30th June 1880, I have been called upon by the Accountant General, Madras, to furnish a list of cemeteries in Mysore, which are affected by the decision of the Government of India in para 2 of their letter recorded in the above order. Will you be kind enough to give instructions that I may be furnished with a list?

Under instructions from Government I am preparing a revised list of cemeteries throughout the Presidency, and in writing to the Collectors of Districts to be furnished with a list of cemeteries under their charge, I have requested them to state not only the names of cemeteries, but whether not used or used, and the area of each in 3 columns.

Name of Cemetery.	Used or not used, *i. e.*, closed.	Area.

I shall be much obliged if you will furnish me with returns in Mysore in the same form.

Proceedings of the Chief Commissioner of Mysore in the General Department, (General),—dated 4th August 1880.

No. 3287-3297— G. 854, DATED BANGALORE, 4TH AUGUST 1880.

ORDER.—The Government of India having directed that cemeteries in Mysore situated at other than military stations should be placed under the control of the Chief Commissioner and brought under the operation of the rules published in Home Department Notification No. 421, dated 12th December 1877, the Chief Commissioner directs that those rules as subsequently amended, be published in the *Mysore Gazette* and be made applicable to cemeteries at civil stations in Mysore from the date of the Government letter printed above.

2. Deputy Commissioners of Districts are requested to send in lists of all cemeteries within their District in the form given in the letter from the Venerable the Archdeacon, and to add in a column of remarks what establishment, if any, is now maintained in each cemetery, by whom paid, and at what rate. The strength of establishment for the future is ruled by the area of the cemetery in accordance with Rule 2 of Resolution No. 6, dated 9th November 1876, but for the rates of pay to be sanctioned for "Mali Chaukidars" and coolies, Deputy Commissioners will make suggestions in accordance with the rates prevailing in the Districts for men of that class.

3. According to Rule I, Clauses 3 and 4 of Part I of the Rules published in the Notification No. 421 of 12th December 1877 in civil stations where there is no Chaplain or Church Committee the Deputy Commissioner is to nominate a subordinate officer to be in charge of the cemetery. In sending up the lists of cemeteries therefore, Deputy Commissioners are requested to state the names of the officers so nominated by them.

4. Rule XII of Part I requires that a list of monuments of archæological or historical interest should be obtained, and as many of them as may be properly maintained at the public expense should be looked after by the Public Works Department; Deputy Commissioners will therefore furnish the Executive Engineer of the District with the lists of such monuments and that officer will obtain the orders of the Superintending Engineer on the subject.

5. All receipts on account of cemeteries are to be paid into the Treasury to the credit of the Imperial Department Public Works. The Deputy Accountant General will issue any instructions necessary for the proper crediting and accounting for these receipts with Her Majesty's Treasury at Bangalore.

6. In the matter of expenditure, it will be observed that the cost of the maintenance of the cemeteries will be borne by the Imperial Government. The District Magistrate and Chaplain together frame a budget providing for establishment and Church furniture, and other items are provided by a budget framed by the Executive Engineer and Chaplain jointly. The time for the preparation of these budgets for the current year has passed, but on receipt of the statements called for from the Deputy Commissioners a supplemental budget for establishment will be prepared in this Office, with proposition statements for the entertainment of the new establishment, and estimates for such repairs as are urgently required to be executed in the current year may be framed by the Executive Engineers and budgets prepared to meet the anticipated expenditure. On sanction being accorded to these suplemental budgets the Deputy Accountant General and Examiner, Public Works Accounts, respectively, will issue instructions to Deputy Commissioners and Executive Engineers as to the manner of drawing the money.

Proceedings of the Chief Commissioner of Mysore in the General Department, (General),—dated 9th August 1880.

READ—

The Annual Reports by the Surgeon to the Mysore Commission for 1879, upon (1) Medical and Sanitary, (2) Hospitals and Dispensaries and (3) Special Hospitals.

No. 3442—GENL. 887, DATED BANGALORE, 9TH AUGUST 1880.

ORDER.—These reports are all dated the 1st January 1880, but they were not received until the 29th June when they were sent to be printed. It is requested that the actual date of the report be given in future.

2. The rain-fall in 1879 was 40 inches 67 cents which is above the average; it was moreover seasonably distributed and resulted in abundant harvests. The mean temperature of the year was 72·3 and the humidity 67. These figures represent almost exactly the average of 7 years.

3. The health statistics of the Native army stationed in Mysore are imperfectly given, because of the two Native infantry regiments, the 4th and 15th, which proceeded on service towards the close of the year, the statistics of the former were imperfectly given and of the latter they have not been received at all. However so far as recorded the year shews a larger daily average sick but a much reduced mortality; the death rate per mille was 8·11 in place of 16·10. Among followers on the other hand the death rate was heavier than in 1878, and reached 32 per mille.

4. The health condition of the jails in the Province exhibits a striking improvement upon that of 1878. The total number of admissions to hospital did not decrease so much as the death rate which fortunately has fallen from 282·69 per mille to 47·36 per mille. In the Hassan, Shimoga, Chikmagalur and Mysore Jails the rate is still unduly high, but it is noticeable that not only in these but also in the jails where the rate is least the causes of mortality still point most distinctly to the debilitated condition of the people during the recent famine as the disturbing influence that still maintains the death rate at a higher figure than used to be returned before that visitation, and the most experienced of medical officers in charge of prisoners consider that the rate of mortality must inevitably be maintained somewhat higher than they were accustomed to look for for a few years to come, for there are still many convicts who have lingered on still but who exhibit those symptoms, now so painfully familiar to the medical man who has had to deal with famine sick, which shew that the seeds of death have been sown and inevitably they must succumb ere long, for complete recovery has become impossible.

5. In the registration of births and deaths a new system was introduced during the year by which the work was thrown upon the village Patels or head men, and registers are maintained in every village capable of easy inspection and verification. The system was worked during the latter 9 months of the year and though the returns, when judged by the standard of other countries where the registration is known to be accurate, shew that an immense deal is still to be desired, there is no doubt that an improvement has already been effected. This is especially noticeable in the number of births registered, which comes almost to 10 per mille of the population of 1871, instead of 2½ in 1878. In deaths registered there is an increase, although there is every reason to believe that mortality was lighter than in 1878, shewing that the increase is ascribable to improved registration. The recorded rate is nearly 16 per mille of the population of 1871.

6. As there is reason to believe that the population at the present day is below that of 1871, the births and deaths recorded are really in greater ratio to the population than would appear, still if 4,100,000 souls be the population as has been estimated

from the Test Census returns the birth and death rate would be 12·11 and 19·58. These are still much below what must be the truth, and that the registration is still very inaccurate is further exemplified by the circumstance of the recorded deaths so far out-numbering the recorded births in a year when there were no epidemics, and in the fact that both in births and deaths the excess of males over females is unduly high. This important subject is very carefully watched by the Chief Commissioner and no effort is spared to effect improvement.

7. The number of Hospitals and Dispensaries in the Province has remained unaltered at 19, but a new Dispensary is to be opened at Kadur and the Túmkúr 3rd class Dispensary is to be raised to the 2nd class.

8. In-patients treated in these numbered 3,998, and out-patients 146,032. These figures shew a reduction of 853 and 26,546 respectively as compared with 1878, which is ascribed to improvement in the health of the people, for it is reported that the hospitals and dispensaries are growing in popularity, and there is a reduction in the death rate at all the hospitals as compared with 1878, the ratios per cent being in 1878, 21·71 and in 1879, 16·46.

9. In the Bangalore Special Hospitals, the Lunatic Asylum and the Leper Hospital, the following facts may be noted. In the Lunatic Asylum 35 admissions added to 129 remaining at the close of 1878, made the total population 164, of whom 14 were discharged cured, 1 absconded, and 11 died, leaving 138 at the end of the year. These figures shew the asylum to have been worked very successfully: the ratio of recoveries to admissions is 40 per cent to exceed which one has to look back to the year 1873, and the death rate of 8·4 per cent of the total number is lower than usual.

10. In the Leper Asylum there were 43 inmates at the end of 1878, and 14 admissions during the year. The improved condition of the people has told in reducing the number seeking admission, as it has become so much more easy to obtain a livelihood outside the institution, and another effect was that 7 inmates obtained their discharge and 4 left clandestinely. There were 7 deaths and 39 inmates left at the close of the year.

No. 2783-90—D. F. 29, DATED BANGALORE, 7TH AUGUST 1880.

ORDER.—In continuation of Proceedings No. 911—89 of the 19th May 1880, the Chief Commissioner directs that the following rule be added to those laid down in para 3 of the above Proceedings.

Where no customary rates prevail, or can be agreed upon, in regard to the carrying of the villagers and market people in the neighbourhood of the ferry, and their cattle and goods, as distinguished from general passengers, half the prescribed rates of fees only shall be levied from them.

Letter No. 210 of the 31st July 1880, from the Deputy Commissioner of the Hassan District, on the subject of the right of the Narasimhaswami temple at Gorúr to the income from the ferry at that station.

No. 2791-9—D. F. 30, DATED BANGALORE, 7TH AUGUST 1880.

ORDER THEREON.—The orders issued in Proceedings No. 911-19—89 of the 19th May last were not intended to cancel the instructions issued in para 3 of Proceedings No. 1851—R. 4, dated 3rd June 1875, in regard to prescriptive rights possessed by temples in the proceeds of individual ferries and in regard to which the Deputy Commissioner's report has been awaited.

2. There appear to be only two such cases of private rights in ferries on the high roads in the Hassan District, besides four more cases of minor ferries. Final orders have already been issued in Proceedings No. 2611—G. 101, dated 18th August 1873, sanctioning the payment of Rs. 17—7—8 to the Ramnathpur temple from the annual proceeds from the ferry at that station. The claim of the Gorúr Narasimhaswami temple now reported upon is of a similar kind, and is based on prescriptive enjoyment, but not supported by any valid grant. This prescriptive right extended only to certain services from the ferry-men who were allowed to enjoy the ferry rent-free. The instructions issued by the Muzrayi Officer in 1870 for making over the entire income of the ferry to the temple instead of the services were quite unauthorized. The Chief Commissioner is not therefore prepared to sanction the proposal of the Deputy Commissioner to assign to the temple an amount equal to the average income from the ferry, *viz.*, Rs. 314. The right of the temple is altogether of an indefinite character, and can only admit of settlement by a compromise. Under all the circumstances of the case, the Chief Commissioner is pleased to sanction the payment to the temple from the District Funds of an annual sum of Rs. 157, being half the average proceeds of the ferry for the last 5 years. The temple will not be entitled to share in any increased income which may be secured by an improved management of the ferry.

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Revenue),—dated 12th August 1880.

READ—

Letter No. 128, dated 13th June 1880, from the Officiating Deputy Commissioner, Kadur District, applying for Rs. 1,300 for paper required for the preparation of the 2nd copy of the village account Form No. I prescribed in the revised Survey Manual.

From the Superintendent, Revenue Survey, Mysore, To the Secretary to the Chief Commissioner, Revenue Department, No. 598, dated Bangalore, 7th August 1880.

I have the honor, in reply to the query contained in Chief Commissioner's Proceedings No. 2644—Rev. 489 of the 3rd instant, on the subject of an application from the Deputy Commissioner, Kadur District, for Rs. 1,300 to cover expenses of preparing second copy of village account Form No. I, to observe that it is not stated whether the sum in question is intended to apply to the whole District or to a portion of it. The following information will however serve to convey some idea of the propriety of the claim made as well as of the estimate of expenses.

2. Village account Form No. I is first prepared in the taluk and the Shanbhog should take a copy. In this view of the case no special expenditure appears justifiable.

3. Presuming however the expenditure to be necessary, one ream of paper is sufficient for 1,900 survey numbers. The Taluk of Chikmagalur is a very large one containing about 28,000 survey numbers, and 15 reams would amply suffice. Paper at 4 Rs. per ream is good enough for all purposes. This would give Rs. 60 for the expenses for a duplicate of village account Form No. I for an unusually large taluk.

4. Rupees 360 would in my opinion cover the expenses for the form in question for the whole District.

5. The Shanbhogs should not in my opinion be called on to bear the expense of both copies.

No. 2860-8—R. 522, DATED BANGALORE, 12TH AUGUST 1880.

ORDER THEREON.—Paras 2 to 5 of the Survey Superintendent's letter above quoted will be communicated to the Deputy Commissioner of the Kadur District for his information and guidance, in reply to his letter dated 13th June 1880, No. 128. It will be seen that nothing like the amount applied for by the Officiating Deputy Commissioner, *viz.*, Rs. 1,300, is needed for the paper required. Moreover, as the first copy of Form No. I is prepared in the taluk on paper supplied by Government, the 2nd copy should be prepared by the Shanbhogs out of the stationery allowance granted to them.

READ—

Letter No. 126 of the 22nd July 1880, from the Deputy Commissioner of the Túmkúr District.

No. 2690-7—P. 283, DATED BANGALORE, 5TH AUGUST 1880.

ORDER THEREON.—The Chief Commissioner considers that a mortgagee or other person in possession of land not held under patta in his own name can be proceeded against for arrears of revenue only to the extent of the produce of such land as may be in his possession. All further liability for arrears falls on the pattadar. The best course however in all such disputed cases is to sell the land itself. If, in the case under notice, the land has not found a purchaser, and the pattadar has no property, there is no other course left than to remit the arrears, and to resume the land, and to sell or give it out for cultivation to others unconnected with the pattadar or mortgagee. The Deputy Commissioner is accordingly requested to refund to the petitioner, any sums collected from him by coercive measures.

2. It may be remarked that sales of land for arrears of revenue are free from all claims of mortgagees or others and this fact should be distinctly notified to purchasers at such sales.

Letter No. 8 of the 9th April 1880 from the Deputy Commissioner of the Túmkúr District, submitting for orders copy of correspondence with the Survey Superintendent, regarding apportionment of the cost of boundary marks of Government waste lands on the villagers.

No. 3001-11—R. 544, DATED BANGALORE, 18TH AUGUST 1880.

ORDER THEREON.—Though the provisions of Section XII, Clause 1 of the Survey Act No. I of 1865 are not explicit on the subject, the Chief Commissioner is not disposed to relax the responsibility which naturally devolves on the villagers and which has hitherto been enforced, to erect the boundary marks of all the lands, occupied and waste, in their village and in which they must be considered to be interested. It is observed that when the Government undertake the erection of these boundary marks, only a portion of the cost as regards waste lands is recovered from the villagers, the remainder being borne by Government. There seems no reason why the villagers should not be similarly allowed a portion of the cost at a fixed rate per boundary mark if they undertake to do the work themselves, and this at the present time is the more necessary as the extent of lands abandoned owing to the famine is considerable in many villages and the few ryots left must find it hard to erect all their boundary marks if they have to bear the whole cost themselves. The Survey Superintendent is therefore requested to arrange for paying to the villagers a portion of the cost connected with waste lands at a fixed rate, and with such aid, the Chief Commissioner trusts, that the Deputy Commissioners will be able to prevail upon the leading ryots of each village to undertake the work themselves, getting the other ryots to do their portion of the work or pay for the same. Such an arrangement will obviate the inconvenience of the Government erecting the boundary marks and afterwards recovering the cost from the villagers.

No. 3161-70—REV. 573, DATED BANGALORE, 26TH AUGUST 1880.

ORDER THEREON.—The occupancy right of lands on which arrears of revenue are due is forfeited to Government, and when it is sold the sale conveys the full right of occupancy free of all incumbrances created by the former occupant. This is expressly provided for in the Madras and Bombay Regulations bearing on the subject,—*vide* Section 56 of Bombay Act V of 1879, and Section 42 of Madras Act II of 1864. The wording of the notifications for sales of lands for arrears of revenue should be altered accordingly. This will not apply to other immovable property of the defaulter on which the arrear is not due, and the sale of which can only convey the right, title and interest of the defaulter.

Letter No. 684 -290 of the 19th February 1880, from the Commissioner of the Nagar Division.

No. 3219-28—R. 580, DATED BANGALORE, 31ST AUGUST 1880.

ORDER THEREON.—In the letter above read, the Survey and Inam Commissioner observes that para 2 of the Inam Precis No. 35 requires no alteration, and that the practice in Bombay is, when portions of inams charged with jodi are relinquished, to remit from the jodi the full survey assessment of such relinquished portions. The Chief Commissioner is unable to concur in the expediency of recognizing such a rule in respect to personal inams. As already remarked, when a portion of such an inam bearing jodi consisting of an entire survey number is allowed to be relinquished, the reduction to be made in the jodi should not be the amount of the full survey assessment of the number relinquished, but only such proportion of the jodi as the full assessment of the relinquished portion bears to the full assessment of the whole inam. Otherwise as there is no certainty of the relinquished lands, which are generally inferior, being taken up for cultivation, there would be a needless sacrifice of the jodi due to Government. The whole inam holding is primarily liable to the whole amount of the jodi charged on it. Permission to relinquish portions of inams is not claimable as a matter of right and is only allowed as an indulgence, and in such cases the utmost that the relinquisher can reasonably ask for is the remission of the proportion of the jodi due on the relinquished land. Similarly when portions of inams consisting of entire survey numbers are allowed to be transferred or sold for arrears, the transferred portion will carry with it the proportion of the jodi due on it. This was the view held in para 6 of the Inam Commissioner's Notification No. 213, dated 27th September 1870, to which the Chief Commissioner's Proceedings No. 899—65 of the 5th April 1874, enjoined a strict adherence in all cases.

2. The above remarks are applicable to personal inams, but where the inam constitutes the emolument of a village office holder, it will be necessary, in cases of relinquishment as provided in para 27 of the revised rules for the remuneration of village officers, to reduce from the jodi the full assessment of the land relinquished

in order not to diminish the amount of the emoluments. This strictly speaking does not apply where the lands are continued to the mere share-holders or even to the office holder if the remuneration, as is now generally the case, be separately fixed in cash. In such cases the inam land no longer constitutes the remuneration for the office, but as by Rule XXXVI it is supposed to be still held on the condition of service and to be inalienable, Rule XXVII will continue to be applied to these inam lands though the effect of this will be to diminish the assets derivable by Government from the inam lands towards the partial recoupment of the cost incurred in the cash remuneration. As regards all other inams, the Chief Commissioner directs that para 2 of Precis No. 35 be considered to be superseded by the orders now conveyed.

3. The Survey Commissioner will be asked with reference to Rule XXXVI to define clearly the future tenure of the inam lands attached to the Shanbhog and Patel offices, whether they are to continue to be entered in the accounts separately as service inam lands, and whether any restriction is to be placed on the transmission of the lands amongst the members of the families of the share-holders who are now in possession, and further as the lands are declared to be inalienable, what course is to be pursued when the holders fail to pay the additional assessment imposed upon them.

Chief Commissioner's Proceedings No. 5206-15—F. 649 of the 8th January 1880, calling for a report as to the progress made in planting the edges of tank-beds so as to obstruct the flow of silt, the description of trees considered best for the purpose, and the arrangements proposed for preventing the silting up of tanks.

No. 2615-22—F. 282, DATED BANGALORE, 2ND AUGUST 1880.

ORDER THEREON.—Replies on the subject of the planting of trees on the edges of tank-beds to prevent their silting up have been received from all the Districts except Mysore and Shimoga. Honge and other trees are stated to have been planted in some cases in the Kolar and Kadur Districts, but the effects which have attended the measure are not stated. In other Districts no progress appears to have been made in the matter. The Deputy Commissioner of Hassan doubts the efficacy of such planting, and states that the simplest course is to accept silt as a necessary evil, and to improve the capacity of the tanks by raising the bunds as required.

2. The measures to be adopted must vary according to the nature of the soil and other circumstances. Protection is more required where there is dry cultivation round the beds of tanks, as wet fields with their embankments arrest to some extent the flow of the silt. In all cases, a sufficient breadth of land around the bed should be reserved, and both on this and along the edges of the main-feeders the villagers should be encourged to plant honge, babul and other trees, or reeds and grasses according to the circumstances of each case, being allowed to enjoy the produce of the trees.

3. Silt-dams may be constructed in special cases in which they may be required. The Deputy Commissioner of Bangalore remarks that the best form of a silt-dam will be a small tank which will retain the silt and let the water discharge at the kodi.

4. The removal of silt for purposes of manure where there is a demand for it should also receive every encouragement. On the whole the Chief Commissioner considers that good results may be obtained by the Deputy Commissioners and the Amildars giving continued attention to the subject, and by encouraging the ryots to interest themselves in the matter, giving them full rights of property in the trees which may be planted by them for the purpose.

No. 2606-14—MIS. 369, DATED BANGALORE, 2ND AUGUST 1880.

ORDER THEREON.—In Proceedings No. 318-26—62, dated the 16th April 1880, avenue trees planted on the sides of roads were re-placed under the orders of the Revenue authorities as they are best fitted to deal with any private rights involved in the trees, and to arrange for their preservation and re-planting through the agency of the villagers. Matters relating to the planting and watering of the trees, the removal of dead trees and the disposal of the produce, will continue to be dealt with by the Revenue authorities; but as regards the lopping of the trees and the removal of any obstructions to the road, the Chief Commissioner considers that the Officers of the Public Works Department or others who may be in charge of the road are in a better position to carry them out than any other officer. They will therefore be responsible for these duties. They should of course bring to the notice of the Revenue Officers any matters requiring their attention in connection with the avenue trees, and the Chief Commissioner believes that by such co-operation on the part of the Officers of both Departments, the proper planting and preservation of avenue trees will be ensured.

Letter from the President, Municipal Commission, Bangalore, No. 1752, dated 4th August 1880, submitting a programme of the measures to be adopted for taking the Census of 1880.

No. 2806-16—Mis. 381, DATED BANGALORE, 10TH AUGUST 1880.

ORDER THEREON.—The Chief Commissioner observes that a mere list of roads and streets cannot suffice to ensure against omissions in the enumeration. A register of houses and buildings should be prepared before hand in the form furnished with Proceedings dated the 11th June 1880, and a classified list of occupations and castes should also be prepared and submitted at once for approval. It will not suffice simply to throw the work on the Municipal Commissioners of the Divisions. The arrangements proposed by each of them, the allotment of their Divisions into Enumerators' blocks and the Enumerators to be appointed should all be previously determined, and care should be taken to instruct the Enumerators in the form of the schedule and the details of the information required to be filled in and the manner of their conducting the work.

2. In Bangalore and in Mysore and perhaps in the other larger District Headquarter Towns, the preliminary census need not perhaps be commenced at so early a date as was fixed in the Proceedings of the 11th June 1880 for the rural parts of the Province, but it will be desirable to have the schedules first filled in as regards the fixed population so as to facilitate the work at the final enumeration when it will only remain to correct the above and to register additionally the floating population. The arrangements to be made for this sho[illegible] also be considered and reported in detail.

Letter from the Secretary to the Government of India, Foreign Department, No. 251, I. P., dated 5th March 1880.

No. 2989-96—EDL. 43, DATED BANGALORE, 17TH AUGUST 1880.

ORDER.—The difficulty of continuing the system of guarantee of appointments owing to approaching changes in the Administration and the uncertain demands of the public service, the very small number of students who, notwithstanding such guarantee, presented themselves for instruction in the higher course of engineering, and the consequent extreme costliness of the institution have necessitated the abolition of the Bangalore School of Engineering on a collegiate scale, and it now becomes necessary to provide facilities for such of the youths of the Province as may desire to graduate in engineering in the colleges elsewhere, and also to establish a local school on a lower scale for giving instruction of the standard required for Overseers, Sub-Overseers and Taluk Mestris in the Public Works Department, and for subordinates in the Survey Departments. The Chief Commissioner resolves to issue the following instructions on the subject.

2. A limited number of scholarships of 25 Rs. each per month will be provided from the Provincial Funds to aid deserving young men in the Province who may desire to graduate in engineering in the College at Poona, Madras or Calcutta. Four scholarships will be thrown open in the current year, and two more every year hereafter. The Heads of Schools and the Deputy Commissioners of the Districts may send up through the Director of Public Instruction, the names of any applicants who may possess the necessary educational qualifications, and who, by their intelligence, character and active habits, may give promise of turning out useful Engineers. The scholarship will be tenable for the period required to complete the course prescribed, subject to periodical reports of good conduct and progress from the Head of the Institution. No guarantee can be given for employment in Mysore or elsewhere, though preference would be given to those who had distinguished themselves at College, in the selection for appointments in the Province.

3. The local school for engineering will be held in the premises of the Central College at Bangalore, and conducted by the Native Master now employed, aided by an Assistant, if hereafter found necessary. It will provide instruction up to the standard required for Overseers in the Public Works Department, embracing also the knowledge necessary for subordinates in the Revenue and Topographical Survey Departments. Admission to the school will be open to all students who have matriculated, or have studied for a year in a Matriculation class. The school fee will be fixed at Rs. 2 per month. A limited number of scholarships of 8 Rs. per mensem each will be provided out of the Local Funds of each District, 3 for each of the Districts of Bangalore, Mysore and Shimoga and 1 for each of the remaining five Districts, or 14 scholarships in all. The Deputy Commissioners should, in consultation with the Head Masters of the District Schools, select deserving students and send them on such scholarships to the School at Bangalore, where they will moreover be admitted free. Any other poor and deserving students may also be excused the school fee at the discretion of the Director of Public Instruction.

4. The Director of Public Instruction is requested to arrange at once for the establishment of the school on the above terms, and to submit after consultation with Majors Grant and Bowen a scheme of studies for the school. The Deputy

Commissioners should at once take steps to select and send out students from their Districts as above directed.

5. The Chief Commissioner considers it necessary for the success of the school that it should have also the assistance of some practical professional man of experience who, on a small monthly allowance, may be willing to undertake the instruction of the students in practical engineering, occasionally taking them out for experimental work, and holding examinations periodically. The Superintending Engineer will be consulted as to how this can be best arranged.

6. Should the Superintending Engineer consider that any of the existing Taluk Mestris will be better for some training in the school, arrangements should be made for admitting them and giving them the necessary instruction.

7. No guarantee of appointments will be given, but the Heads of the Departments will be required to give preference in filling up appointments to those who pass out of the local school and who may be found deserving. Not only is there a large field of employment for these men in the subordinate grades of the Public Works Department, as well as in the Revenue Survey and Topographical Survey Establishments, but the possession of such technical qualifications will count in their favor in the filling up of appointments also in the Revenue Department of the District and Taluks. There should be no lack of inducement therefore to attract intelligent youths in the Province.

8. The Chief Commissioner would further wish to make arrangements for efficient instruction in other branches of practical science, such as are likely to be useful to the students in their after-life. The University course, it is believed, now embraces Chemistry, Physiology and Physical Geography in the lower classes, but instruction in such subjects by masters who have not thoroughly studied them cannot be very valuable or sound. If the services of a European or Native well versed in these subjects as well as in other kindred branches of knowledge, *viz.*, Vegetable Physiology, and Botany, Geology and Meteorology, could be secured, he may with much practical advantage be employed as an itinerant teacher, giving a course of lectures in the above subjects for a certain portion of the year in each of the three principal schools in the Province at which both the students at the schools and any others anxious to learn may attend on payment of such fee as may be prescribed. The Director is requested to offer any suggestions which may occur to him for practically carrying out some such arrangement.

9. As the class for Forest students no longer exists, Mr. Cameron may arrange to open a class at the Lal-Bagh for giving instruction in Vegetable Physiology, Botany and Practical Gardening for a couple of hours in the morning 3 times a week during certain months of the year. A moderate fee may be fixed, to be appropriated towards his remuneration for the work. The hours should be so fixed as to suit both students from schools as well as any others desirous of availing themselves of the instruction. The Director is requested to offer any suggestions on the subject in communication with the Director of the Lal-Bagh and Mr. Cameron.

EAD—

Annual Report on the working of Civil Dispensaries in Coorg, for the year 1879.

No. 644—G. 85, DATED BANGALORE, 21ST AUGUST 1880.

REVIEW BY THE CHIEF COMMISSIONER.—The Civil Dispensaries at Mercara and Virarajendrapet have each beds for 16 in-patients: that this accommodation is insufficient, as the Surgeon to the Mysore Commission states, may be seen from the circumstance that the daily average of in-patients has been 54·96 throughout the year and the total number of in-patients was 860, being 647 less than in 1878.

2. Of out-patients the total number was 11,139 an increase of 1,497, but their attendance appears to have been much shorter on the average than in 1878, for the daily average fell from 131·74 to 89·32.

3. The Province has been free from cholera and nearly so from small-pox also, on which account there was but one admission to hospital. Both in Mercara and Virarajendrapet fever accounted for the greatest number of any one class of cases treated; indeed they afforded a number of cases exceeding, at both dispensaries, $\frac{1}{3}$ of the total of patients. Most of these fever cases, it is probable, were but slight; there is and can be no account given of the mortality except in the 'Hospital' or in-patients, but among those the mortality from fever gives a lower average than that from bowel-complaints, dropsy, respiratory diseases and injuries, both at Mercara and Virarajendrapet.

4. The expenditure of the year increased considerably upon that of 1878 but not so as to reduce the balances which amounted to Rs. 4,491 and were Rs. 110 more than at the beginning of the year. In Mercara it is reported that 45 per cent of the expenditure was paid by Government, in Virarajendrapet the proportion was as high as 81.
